Studies

- **Organization engineering (master):** from September 2013. I am actually studying Organization engineering master which can provide me more knowledge about production and human resources, in order to get skills to manage engineering projects.
- **Aeronautical engineering - Airports.** 2009-2012. A+++ mark in the final degree project. A as an average mark in the whole degree.

Aeronautical experience:

- **Industria turbopropulsores:** (Nov 2012)
 - Designing instrumentation technology for Trent 1000 and Trent XWB aircraft Rolls Royce engines.
 - Necessity of daily communication with **Rolls Royce** Derby (UK) and usually with **Rolls Royce** Indianapolis (EEUU).
 - Coordinating different schemes for concurrent projects.
 - Teaching new employees with similar duties.
 - Assessment of risks and evaluating different stress proposals.

Commercial experience:

- **SMK travel:** (Dic 2009 – Ene 2013)
 - Getting customers for SMK travels.
 - Managing travels, with more than 5 people under my supervision and organizing activities for more than 100 clients.

Knowledges

- **English:** high speaking, reading, listening and writing level.
- **Unigraphics NX7.5:** professional level in modeling, drafting, sheet metal and routing modules.
- **Windchill:** professional level in this PLM software.
- **Microsoft office:** high level.
- **Photoshop:** advanced user of this design software.
- **Lenguaje FORTRAN:** advanced user.
