

Name

Andres Gonzalez

Job position

Piping Supervisor

Piping Superintendent

Project Materials Manager

Deputy construction manager

Career Objective:

Learning and serving with dedication by become a progressive element of such a growing industry which offers me the opportunities to think independently in bringing new visions, innovations & Ideas and I can put my abilities of leader ship, Self motivation, Enthusiasm, confidence and result oriented dynamic sentimental approach to achieve the objectives.

Knowledges:

Over 24 years experience as Technical materials and piping supervision specialist in engineering Oil & Gas Project Construction Management.
Experienced in EPC ,EPCI ,FEED ,SITE, CONSTRUCTION, LNG ,NUCLEAR
Engineering onshore ,looking to get offshore experience

Technical skills

- ✓ Project Materials Management (site work)
- ✓ Piping supervisor/superintendent
- ✓ Project control FEED stage and EPC
- ✓ Site construction and management
- ✓ Start-up plants
- ✓ Project construction Management

IT skills

- *Pack office very good
- *IPMS (Integrated Program Management in house system KBR) U.S
- *EGX (Groupe Genoyer in house System) France
- *MATUB IBM in House TECNICAS REUNIDAS system
- *Primavera P3 V1.0
- *Lotus Notes 8.5
- *ISOMAT in house MAN system
- *S.A.P Module site management MAN

Languages

- *French Fluent
- *English very good
- *Spanish Native
- *Italian fluent

Countries I had worked at:

Singapore ,Mexico ,Egypt ,Lithuania ,Turkey ,Saudi Arabia ,Malaysia ,Indonesia ,UK ,
Spain ,Portugal ,Germany ,Guadeloupe (French Antilles) ,Venezuela

Career

Professional Experiences

****April 2013 to March 2014**

Project Materials Manager

Augsburg Germany and French Antilles

MAN Diesel & Turbo SE 240 MW EDF project ,Pointe Jarry Guadeloupe (French Antilles)

Client EDF ,Electricite du France

Supervise and monitor SUB-CONTRACTOR's procurement and logistics activities. Monitor performance by coordinating with SUB- CONTRACTOR's procurement manager and logistics manager.

Confirm the SUB-CONTRACTOR's comply with Pointe Jarry overall management system, In-house management System, for equipment and materials including IT, support system for isometrics control execution.

Material Manager (Material Control Coordinator) in the Joint Venture EDF/MAN/EIFFAGE, and lead project management team ,monitor SUB- CONTRACTOR's material status ,to be delivered on time to Client EDF procurement project management ,as well as liaise logistics and material handling, to the construction site.

Coordinate between the head office in Augsburg Germany and work site Pointe Jarry.

****Sept 2012 to March 2013**

Project Coordinator

CHIYODA corporation :Deep Conversion Project RPLC (PDVSA)

Pto La Cruz (VENEZUELA)

Project N2 Cold Boxes superintendent civil and mechanical

Assist and support local partner for Main Work

Execute construction work with special technology for Main Work, how to control and manage local subcontractors for Main Work, control construction progress using Chiyoda's established Construction Management System, how to carry out material control at site using Chiyoda's computerized system. Deputy Mat's Manager at site

Coordinate with all concerned management staff at site and subcontractors on order to ensure the project specified quality and performance During execution phase after initial phase Maintain close communication with site construction team in order to support site construction team, ensure on-time completion of EW activities and the implementation of project control procedures in the following areas:

-Logistics

Construction resources

Project completion and turnover

Attend project meetings with client to review progress, changes in work

Prepare the project reports for project status to client

****Jan 2012 toAugust 2012**

Deputy Construction Manager

CPI LINDE GAS Sagunto II Separation Gas Plant

SAGUNTO SPAIN

Project N2 Cold Boxes superintendent civil and mechanical

control construction progress established Construction Management System,

how to carry out material control at site ,schedule and progress control, .Coordinate with all concerned management staff at site and subcontractors on order to ensure

the project specified quality and performance During execution phase after initial phase Maintain close communication with site construction team in order to support site construction team control procedures in the following areas:

-Logistics

Construction resources

Project completion and turnover

Attend project meetings with client to review progress, changes in work

Prepare the project reports for project status to client

.....

****Dec 2009 to Dec 2011**

**PROJECT MATERIALS MANAGER AND PIPING SUPERVISOR GROUPE GENOYER
(PHOCEENNE) SINES PORTUGAL
(Galp Oil Refinery reconversion project)**

Project Mat's Manager Sines Refinery Conversion being in charge of materials reception (Piping) and cross checking isometrics and mat's available with EGX system In House System, HSE weekly meetings and coordination meeting with the client Note: Award winning during shut-down 2011 And final released of the spare parts and preservation

....

****Jan 2008 TO Dec 2009**

**PROJECT MATERIALS MANAGER AND PIPING SUPERVISION
GROUPE GENOYER (PHOCEENNE) SINGAPORE/MALAYSIA/INDONESIA.
ECC HOUDINI PROJECT SHELL (Jurong , Pula Ular Island SINGAPORE)
In charge of all materials involved on the project and its inspection**

Project materials manager in Singapore, I was responsible of 135 people for receiving and issuing materials for the mentioned Singapore project

****Also technical advisor Piping supervision for Sarawak SHELL project (Malaysia)**

**** Technical advisor in TOTAL project (Indonesia) And final released of the spare parts and preservation**

....

****May 2007 to Jan 2008 (DYNATEC)...**

**Materials Controller Manager and Piping workshops and field supervisor
INITEC INDUSTRIAL PLANTS (TECNICAS REUNIDAS)
Hawiya Gas Expansion Project ARAMCO Saudi Arabia
In charge on isometrics prefabrication and materials run-reservations**

Materials Controller manager with one specific program MAT-TUB doing materials isos run-reservations receiving and issuing materials ,inspecting equipments ,once upon arrival on site and being with MATUB TECNICAS SYSTEM as well as a piping supervisor in prefabrication workshops and field. And final released of the spare parts and preservation

.....

****Nov 2006 to May 2007 (DYNATEC)**

**(Various roles) Piping supervisor, Civil, Steel structure and punch-list supervisor
FOSTER WHEELER (Mazeikiiai Nafta FDD ,HDD Project Lithuania)**

Being in charge of several different disciplines.

Piping Supervision, during prefabrication stage and commissioning, preparation test packages tracking of punch list and preparing and attending hydro test.

Supervising all steel structure, equipments.Checking smooth finish in civil works , as well as underground cast iron for drainage of the plant.

.....

****July 2006 to Nov 2006**

Project Materials Manager

DRAGADOS INDUSTRIAL (MINATITLAN 3 PEMEX PROJECT MEXICO)

In charge of all materials involved on the project

In charge of a team of 65 people for control, equipments, cables piping materials etc...Coordinating materials received and issuing of it, to a several different contractors, isometrics prefabrication control and material run-reservations. And final released of the spare parts and preservation

....

****August 2004 to July 2006 (DYNATEC)**

Project Materials Controller Manager and piping supervisor

TECNICAS REUNIDAS (TUPRAS PROJECT DIESEL/KEROSENE HYDRO PROCESING &CCR , (IZMIT TURKEY)

In charge of materials control, equipments, cables piping materials etc...Coordinating the material received and issuance of it, to a several different contractors, isometrics prefabrication control and material run-reservations. Attending daily progress project with the client meetings. Supervising prefabrication workshops and erection stage. And final released of the spare parts and preservation

....

****Nov 2002 to August 2004 (DYNATEC)**

Project Materials Engineer and piping Superintendent

(TECNICAS REUNIDAS/KBR/JGC Joint Venture)LNGPROJECT,UNION FENOSA DAMIETTA(EGYPT)

In charge of all spare parts and piping erection

Reception, inspection of equipments spare parts mostly heat-exchangers, supervising prefabrication workshops, and field isometrics erection, assisting to the LNG tanks superintendent during construction stage and monitoring loading LNG gas arms on jetty loading area.

....

****Nov 2002 to Nov 2002 (DYNATEC)**

Project Controls

TECNICAS REUNIDAS/KBR/JGC Joint Venture

LICUEFACTION NATURAL GAS PROJECT ,(UNION FENOSA) MADRID/LONDON/HOUSTON

In charge of coordination and project preparation FEED stage.

Coordinator among (MOC) Madrid operation centre and (LOC) London operation Centre, and revising the Technical Deviations

Periodically cooperation in RFQ Data Sheets at KELLOGG engineering office (London.) and KBR (Houston) Including IPMS program input Data (London).

.....

****Dec 1999 to Nov 2002 (DYNATEC)**

Project Various Roles TECNICAS REUNIDAS

MAXIMIZATION OF GAS OIL PRODUCTION, ALEXANDRIA MINERAL OIL COMPANY (ALEXANDRIA EGYPT) In charge of various roles on site construction.

Materials Superintendent and Mechanical and piping supervisor

Supervising the erection of Fire Water Pipes Lines and producing HT packages,

Steam Tracing System supervisor and Control, verification and supervision of Materials received on site. And final released of the spare parts and preservation

Tanks farm supervisor on lay down area.

....

****Nov 1998 to Dec 1999 (DYNATEC)**

Project Piping Supervisor and coordinator on two different projects with TR TECNICAS REUNIDAS HEXANODIOL PLANT (UBE) CASTELLON (SPAIN) AND SMOP REPSOL TARRAGONA (SPAIN)

In charge of various roles on site construction.

Piping supervisor UBE project in Castellon (Spain) and Technical Coordinator of hydraulics test Piping Supervisor of Lateral Filters and aditivation in cooling towers ESINDUS included its hydraulics test on the Chemical Plant SMOP REPSOL Tarragona (Spain)

....

****Nov 1997 to Nov 1998**

Project Piping and materials Supervisor

DUMEZ COPISA DIVISION DE MONTAJES INDUSTRIALES

AIR LIQUIDE ,LEXAN GENERAL ELECTRIC PROJECT CARTAGENA (SPAIN)

In charge of various roles on site construction.

Piping Supervisor and materials inspection QC Control (RX) assistant.

Erection Coordinator of Cold Towers AIR LIQUIDE.

....

****Jan 1994 to Nov 1997**

Project Piping and materials Supervisor

EMMSA MONTAJES INDUSTRIALES

VARIOUS DIFFERENT PROJECT LOCATED IN SPAIN ,Tarragona ,Cartagena

In charge of various roles on site construction.

LEXAN PROJECT ,DOW CHEMICAL ,BP and REPSOL 94-97

****Materials Supervisor and Piping prefabrication In LEXAN PROJECT GENERAL ELECTRIC Cartagena (Spain).**

****REPSOL 96:Warehouse Manager and controls materials prefabrication supervisor and quality control Project 22051 REPSOL POLIPROPILENE II Tarragona (Spain).**

****DOW CHEMICAL (engineering department) RETROFIT I (Insite)**

Supervisor of requisitions materials and verification of materials and pipes: Supervision of isometric prefabricated in RETROFIT I (Insite)and shutdown 95 Project Tarragona).

****BP British Petroleum**

Material manager and piping Supervisor on the technical revision plant revision

....

****Jan 1993 to Jan 1994**

COMPOUND PLANT SITE ASSISTANT POM POLIMERS

REPSOL AND DOW CHEMICAL TARRAGONA (SPAIN) Assistant on various roles.

Cooperation in department of Site Logistics DOW CHEMICAL. Implementation assistant of Program Work, Blue Print.

Cooperation in management of warehouse of compound plant and improvement of it REPSOL QUIMICA.

....

****Jan 1991 to Jan 1993**

DUMEZ-COPISA MONTAJES INDUSTRIALES REPSOL VARIOUS PROJECTS TARRAGONA (SPAIN)Assistant on various roles:

- Project T-1 1 Assistant of piping supervisor.

- Project T-13 Under supervision of UOP Material manager assistant.

- Project T08 1ª 2ª Phase Reception, inspection of materials and Control Quality certificates.

-Project T08 3ªPhase(Cooperation with Turbo Lufttechnik Flare Blower).Warehouse Chief and QC Control. Supervision and operatives of erection.

- Project T08 OFF SITE Reception and verification of erection materials, supervision assistance in Diseprossa Engineering projects. Assistant of piping supervisor

....

****Dec 1986 to Jan 1991**

Various Roles on a Nuclear plant

**DUMEZ-COPIA NUCLEAR DIVISION AND TECH-ATOM
NUCLEAR POWER PLANT ASCO TARRAGONA (SPAIN)**

Assistant on various roles: Supervisor assistant for inspection in whole anti earthquake system of contention building and verification of all materials to recharge the Reactor 1989 in Nuclear power plant ASCO Tarragona (Spain) TECNATOM Técnicas Del Átomo SA Control and preparation of small projects and its Materials Collaboration in inspection of safety valves in contention building and preparation of communication system for coordination the change of fuel reactor rods in Nuclear Power Plant ASCO.Tarragona.

....

****Jan 1986 to Dec 1986**

Piping and WH supervisor Assistant

**DUMEZ-COPIA MONTAJES INDUSTRIALES
REPSOL ETILEN-PIPE LINE TARRAGONA (SPAIN)**

Assistant on various roles: WH and piping supervisor assistant in an Ethylene pipe line duct from Repsol North to south and quality control assistant

....

Education

- * Major School of Languages Mayor Torres Quevedo and BUP/COU (Spain)
- * Course of non destructive test in Institute of Technology E.Labin Bilbao
- * Course of welding test tubes in Nuclear Power Plant ASCO
- * Tarragona. Course of 400 hours for training of method work and its materials in nuclear Power Plant with TECNATOM C.N.ASCO&Torrejon Madrid.
- * Course of 400 hours of Piping in Institute BETTA (Italy).
- * Military Chemist. Lab Pharmacy Military Valladolid (Spain)
- * Mechanical Engineering IT Tech Alexandria Egypt) Fuad university
- * American Egyptian Institute & British Council School of languages (English) and (Arabic) Alexandria Egypt
