EDUCATION AND TRAINING

2009-Currently **Building engineering degree (Ingeniería de Edificación) ETSEM-UPM.**

Final Project to finish.

WORK EXPERIENCE

2013 - Present **Intern in project development of fiber optic. Aplicaciones S.A.**

I work as a designer in fiber optic systems which are installed on different buildings in Spain. I'm in charge of wiring design, drawing creation and making budgets for civil construction related to telecommunication infrastructure.

Summer 2014

Tourist guide in the construction and restoration works carried in Castillo de Ucero (Soria) promoted by Ministerio de Educación, Cultura y Deporte

I show and explain to the public the strengthening of the structure and restoration site jobs that are carried now in a monumental building placed in Soria.

2007 – 2012 **Shop assistant. Frutería Palomar**

I worked in the greengrocer's family store helping in customer attendance and accounting.

2009 – 2013 **ESO and Bachillerato private tutor.**
