EDUCATION

- 2011-2011 **Sociedad de Estudios Internacionales, Madrid**
Curso de Altos Estudios Internacionales
A 6 months program highly specialized in International Relations and focused in *International Relations in the 21st Century*.
- 2007-2007 **Telecom – Lille 1 University, Lille, France**
Specialization/Minor
A 6 months program specialization inside the Telecommunications Engineering program in *Mobile Communications (Comm. Mobile)*
- 2001-2011 **UAH University, Alcalá de Henares, Madrid, Spain**
BSc in Telecommunications Engineering
A 5 years program in Telecommunications Engineering. Specialization in **Electronics** and in **Communications**. Between July 2006 and August 2007 resident in France to improve French language. While in France partially covered Master Courses in *Microelectronics, Microtechnology, & Telecommunications and Automatics & Electronic Systems*.

ADDITIONAL TRAINING

Time Management (INDRA SISTEMAS S.A.)
Effective Attitude (INDRA SISTEMAS S.A.)
Relations and Communication (INDRA SISTEMAS S.A.)
Project Management (INDRA SISTEMAS S.A.)
Budget and Team Planification (INDRA SISTEMAS S.A.)
Relations with Clients (INDRA SISTEMAS S.A.)
Propagation & Radio Engineering: Microwave Systems, Cell Networks, Local Radio Loop, Mobile Communication Systems, Propagation Channel, Multiple Access
Digital Communications: Filtering & Equalization, Digital Transmission Chain, Source Coding and Channel
Architectures & Network Protocols:
GSM NET: Architectures & Protocols, Radio Interface, GPRS/EDGE, Dimensioning and Planning
UMTS NET: Architecture & Protocols, Radio Interface
WIRELESS NET: Wi-Fi.
Programming Languages: C/C++, Assembler
SW: Telecommunications/Math (Matlab, Scilab, Maple), **Electronics** (Pspice, Labview, LabWindows/CVI, VHDL), **Design** (AutoCAD)

LANGUAGES

English C2 (CAE, Cambridge & CPE, British Council)
French A2 – B1 (Intermediate/Low Intermediate)

COMPUTER SKILLS

Word, Excel, PowerPoint, Project, Outlook. Good knowledge of Windows, Linux & Mac environment

WORK EXPERIENCE

- 2012-Current **INDRA TECHNOLOGY SOLUTIONS MALAYSIA**
TRANSPORT BUSINESS DEVELOPMENT & MRT PROJECT DIRECTOR
- High level negotiation according MRT Systems projects
 - Project's contingencies resolution
 - Coordinating working teams between: Spain & Malaysia
 - Coordinating monthly reports: Turnovers, Payments, Sales, Budgets, etc.
 - Coordinating the Annual Operative Plan (AOP) for the branch in the Transport Sector
 - Head of Transport Business Development Unit in the Area (SEAN)
- ✓ Achievements:
- AFC System for LRT and Monorail Station
 - Upgrade System to accept new Bills and Coins
 - Be awarded LRT Line Extension
 - Be awarded LRT and Monorail Additional New Equipment

2010-2012 INDRA SISTEMAS SA

PROJECT MANAGER – AFC & Railway Systems

- High level negotiation according AFC Systems projects
- Project's contingencies resolution
- Coordinating working teams in different countries: Chile, Argentina, México, Portugal, Spain, Malaysia
- Coordinating monthly reports between different branches around the world: Turnovers, Payments, Sales, Budgets, etc.
- Coordinating the Annual Operative Plan between different branches around the world

✓ Achievements:

- Maintenance & Warranty of the project: METRO OF MARACAIBO
- Maintenance, Warranty & New Developments for METRO OF SANTIAGO DE CHILE
- Maintenance of the System I at BUENAVISTA CUAUTITLAN MÉXICO
- Standardization of the ELECTRONIC PAYMENT DESK for BUSES IN GALICIA
- Development, Start Up & Integration between Lines 1, 2 and 3 of EL CAIRO METRO
- EMV STANDARD UPGRADE in METRO LISBOA'S Automatic Ticket Vending Machines
- Maintenance, Warranty & New Developments for METRO of LISBON

2009-2010 NEW DATA REAL TIME SL

COMMERCIAL DEPARTMENT – Lynuxworks RTOS Product Manager & Industrial/Military HW Sales Engineer

- Product Manager:
 - Introducing Lynuxworks products (SW & FW OS) among Spain based companies.
- Sales Engineer
 - Industrial/Military HW from different partners: Advantech, MOXA, Kontron, etc.
 - Preparing and offering global engineering solutions to enterprises in the Transport, Defense, Telecommunication, Public Works, etc, markets.
 - Proposing solutions, new systems implementation, SW/HW configurations, etc. for new and legacy projects, systems and environments.

✓ Achievements:

- Partner with most of the Spanish Trade Market (IBEX35) companies.

2008-2009 MOBIGROUND SW & TECHNOLOGY

COMMERCIAL & PRODUCTION DEPT – Foreign & Product Manager for WAP Pages

- Foreign Business Development:
 - Searching & Creating New Opportunities in foreign markets
- Product Manager:
 - Vodafone's Spanish Account

✓ Achievements:

- Opening New Market Opportunities in France and UK

2007-2008 INTELLIGENT DATA SL

INTELLIGENT EVOLUTION – SW Developer

- Developing software applications under C/C++ programming language for a multinational telecommunication company.

✓ Achievements:

- Implementation of the new TV bit standard communication for the remote control

2007-2007 IEMN: Institut d'Electronique Microélectronique et Nanotechnologie

R&D DEPT – Project Engineering

- Developing TELECOMMUNICATION Projects different fields: telecommunications, electronics and optical communications
- Studying and analyzing implementation System's viability (cost effective, efficiency, efficacy, production capacity etc) for prototyping and mass production
- Prototyping to analyze the implementation of new systems in the area of mass production

✓ Achievements:

- Develop optoelectronic-microwave modules to work in the RAUs and/or the Base Station.

OTHER INTERESTING INFORMATION

- Innovative, enthusiastic, creative, motivated, with leadership and negotiation skills, highly organized and with great planning skills, clearly oriented towards results and good teamwork ability.
- Publications:
 - Components Description for Optoelectronic Devices II* (UAH)
 - Social Impact of ICT* (SEI)
- Marital Status: Engaged
- **Willingness to travel and to be relocated**
